Dear Steffi

Re: Your Service to BTS (UK)

I would like to take the opportunity to thank you for the excellent service that you provide to BTS (UK) through your **blogging platform**.

I choose my suppliers very carefully as my clients demand a high service level from me, in my chosen profession within the Telecoms and Technology industry and therefore I look for like minded service businesses. I am pleased to say, I have had a great quality service since choosing **SLO Media Ltd**.

Bloggng to me, was and still is a dark art form of how, not only to write good content as a subject matter expert in technology (covering all aspects from telecommunications, wi-fi, cyber security, mobile devices and Internet of Things /IoT), but also in where and how to post the content on all the relevant Social Media Platforms.

In comes your highly efficient and self-developed CMS platform. My job has been made as easy as spreading butter on bread! I simply write my weekly content on one A4 sheet and you work your absolute magic in transforming it into a readable and now audio blog post!

Your fantastic automated service that you have skillfully developed as an authority in computer programming means that I get a reminder that my content is due at the start of each week and once received, you edit and format the words into a reader friendly blog. Further to this, you have now added an audio converter to your service for added ease to the service.

I have absolutely no hesitation to recommend you to my clients and happy for you to use this recommendation as a reference at any time.

Yours Sincerely

Pritesh Ganatra
